

Reading begins at home

How to make it fun for everyone

A pack of leaflets and bookmarks for parents, with tips and good ideas about reading with children at each stage of their reading development.

The pack includes: 4 A4 leaflets with tips and advice for different reading stages; 9 bookmarks related to specific picture books and stories, giving ideas for book talk and activities at home; 1 book mark with tips about reading non-fiction books together; 1 book mark for parents to help children who are confident readers; 2 leaflets (KS1 & KS2) to help parents to encourage reading, with suggestions of authors and genres children might enjoy; CD of artwork to print as needed.

Please see over for order form...

Reviewed by Geoff Dubber in *The School Librarian*:

"Here is another little gem from Devon School Library Service. If only other SLSS would produce their own material too. All of us, teachers, parents and library staff, need ideas and perhaps confidence to help us connect primary school children with reading and making it fun. Here is just the pack to do that. You'll find an array of colourful, easy-to-use hard copy and multimedia goodies. Start with 4 bright and colourful A4 leaflets – Sharing books with young children; Reading with your newly independent reader; Reading and the confident reader; Reading and the reluctant reader... all packed with down to earth good common sense advice. Next you'll find 9 good size bookmarks – focused on particular and special books. They all give clear ideas for book talk and related activities for the titles. You'll also find 2 age-specific leaflets that suggest titles, genres and more prompts and book talk ideas. There is a useful CD-ROM of all the bookmarks so you can print out more copies for class and home use. It's an excellent resource. Use it to promote reading for pleasure at parents' evenings."

School Library Service

Where it's @ and how to get there

A cross-curricular approach to independent learning

Equip pupils to exercise their thinking skills and develop information literacy with our Key Stage 2 information skills pack.

Makes it easy to teach a progression of information skills across the curriculum; pupils will enjoy the activities and the lively illustrations; includes worksheets and posters; built-in assessment and certificates of achievement; produced on CD for flexibility; Year 4 module now included.

'Here we have a CD-Rom absolutely stuffed with good ideas for developing information literacy and library awareness in the primary school...'
